

The project implementation team
Liceul Tehnologic
Nr. 1 Valea lui Mihai

ZEFFER TIMEA ERZSEBET

She is optimistic, full of life, dynamic and she has a refreshing effect on the persons whom she has a contact with. Timea is communicative, happy and always willing to taste humour. If you come to know her and you notice that the above qualities do not match her than the explanation is simple: she is definitely hungry! If she eats she will certainly come to her senses.

All in all she is a person who we can always rely on. Timi is hardworking, punctual, responsible and she is not afraid of new challenges. Additionally, due to the fact that she is also a mother, she is very attentive and caring.

*DERŐIDAN ŐTEFANIA
ANICA*

She is that type of person who always notices if someone needs her help. She has the capacity to attract and hold others interest for those ideas in which she truly believes.

Stefania would like to have the possibility to travel more and she is always keen on changing people's old attitude towards life. Her complex personality and her initiative spirit are key qualities for our team.

FURĂU MARIOARA

ROMANIA
MINISTERUL EDUCATIEI, CERCETARII SI INOVATIEI SI SPORTULUI

JUDETUL BIHOR

ROMANIA
MINISTERUL EDUCATIEI, CERCETARII SI INOVATIEI SI SPORTULUI
**ERMIHALYFALVI MEZOGAZDASAGI
FOGIMNAZIUM**
BIHAR MEGYE

Everybody who knows her, agree upon the fact that, the best things she can handle in life, are words. She is convinced that the most beautiful “toy” is the word. She considers that any trivial information may sound beautifully, convincing and aggressively, depending on what kind of “linguistic clothing is dressed up.”

Marioara is the most devoted defender of the correctly spelt Romanian words. On the other hand she is sociable, merry, dynamic and she possesses a good sense of humour.

MICLE IOANA

She is the Romanian language and English language teacher of the group and has all the qualities which are needed to make her indispensable. Her seriousness (which sometimes seems too excessive) disheartens all those people who are tempted by superficiality. The responsibility, with which she accomplishes all her duties, inspires respect in other people. Her preoccupation for perfection in her career leads to tenacity which characterizes the great spirits and her realistic way of approaching life steers admiration.

BODA BRIGITTA

A contagious good disposition embraces her all the time and smiling is an accessory she can't live without. She is a Marketing teacher. She appreciates small and simple things, like the colour of the setting sun, the smell of a flower or the smile of a child.

As a friendly advice: don't ask where she comes from because she will certainly tell her whole life.

CSEPEI ANDRA LAVINIA

Joyful and emphatic, Andra always tries to see the positive parts of each situation. She studied Management in public alimentation at the University and also has a Masters degree in the Management of the tourism units. She loved foreign languages since she was at high school, and being part of our team it is a very good opportunity to speak and practice her language skills.

POPA LAURA MARGARETA

Empathy is the quality that best seems to characterize her. Her sensibility, her encouraging smile when she listens to other people and the lack of malice, make her perfect for her profession: the study of religion.

All the people who know her can confess that she is a devoted friend. Others may say that she is too inward. These people should remember the old philosophy which says that: “Silence is golden.”

BAGHIU ERIKA

Despite the fact that she is young, she is one of the most efficient teachers from the school. Erika is actively involved in many school activities and projects from different domains though her main concern will always remain the environment.

Erika possesses a remarkable ambition and strength for work, thus she manages to fulfill everything she plans.

HEGYESI JUDIT

She has been wearing the label of “good girl” for years, she is our computer science teacher. Judith teacher, maintains the computers in the computer science lab, she installs programs, she gives advice and he helps those who are not so familiar with the mysteries of the IT world.

And also she is a very responsible and serious teacher.

**Dynamic team with experience in
implementing Erasmus projects.**
